Buffalo Yacht Club

April 2023

**Commodore Ted Johnson's comments:**

Well it has been an eventful few months. We sustained a considerable amount of damage to the Buffalo Basin and we are working to get everything repaired prior to the boating season. We may have to replace a few docks so please have patience with us as we work through all the issues. We were lucky enough to have the new wall almost complete when the storm hit and the project is almost complete now. We are just waiting for things to settle in order to pave the parking lot.

I want to thank PC Doug Bienko for all his help on the accounting side. When we lost Michelle, Doug stepped in to keep the club running. He has

taught Olivia to make all the postings in our system and Freed Maxick will take over the running of our accounting system for the time being. Doug has been working tirelessly on all kinds of projects and we all owe him a debt of gratitude for all his hard work in the background.

There is a lot going on including the dredging of Point Abino Basin and channel. There are several events coming up at the clubhouse and many successful ones just passed. The dining room is filling up and the need for a reservation on Fridays and Saturdays is becoming a must. Junior sailing is starting so we will have the kids out front sailing and a lot of activities happening. Please reserve July 8th for Sail Roswell. Tom Lewin has a great committee working hard to

make this a successful fund raiser for the BYC in support of Roswell Park. A shout out to Sam and his staff for the constant amount of events they have been running recently. It seems like there is a different event almost every day. It is a tribute to his team that the dining room is filling up and the parties are selling out. The LeRoi Johnson event was close to a sell out and very well attended. Thursday nights seems to be committee nights and the dining room and bar get filled to the brim with all the committee members. A big thank you to all of you who serve on the committees. Without you the club would not be where it is today. So that is it for now, please reserve May 5th for the Cinco de Mayo party!

**Vice Commodore Peter Johnson's comments:**

Wow! That was my first reaction when I walked into the club after the shutdown and saw the new ceiling above the bar and the entire first floor. If you haven't been down to the club to see it, stop by to have a drink and stay for dinner. Thank you to the club members that donated money to the project. The entire project was funded by donations.

I would like to welcome aboard Jack Cambria as our new head chef. Jack came aboard late last year and the food under his watch has been outstanding. During shutdown Chef Jack and Club Manager Sam reworked the menus with some new items and lower prices. Specials now include some more inexpensive options to encourage more members to utilize your club.

The House Committee is working hard to enhance your dining experience. Stay tuned for some of the ideas we are working on including a new wine list. We are trying very hard to get things perfect, and the only thing we cannot help is the crush for dining at 6:30, so if speed is an issue, try earlier or later.

I would like to thank the entire club staff for all the hard work they put in. As all of you are aware staffing is difficult in all business today. We are

constantly looking for new wait staff. If you know someone encourage them to apply. Please be respectful of the current staff and treat them kindly.

**Above: Louis accepts his Vice Commodore flag from the new Commodore.**

**Right: splashing the dredge. Below: Past Commodores at the PC photo wall, I'm in good company indeed!**

Lastly, it is your club. Come down and use it. The food is excellent, view is incredible, and you never know who you will run into at the bar

**Rear Commodore Jonathan Johnsen's comments:**

It's been a busy winter at the BYC as extensive repairs to the wall in the Buffalo Basin have been ongoing, with various issues arising and being solved. We should all thank the Wall and Basin Committees' members for all their hard work.

The new lower deck ceiling was completed during the winter shutdown and looks great. Thank you to all the members who donated money to make it possible. Please come in for a drink and see the difference it makes.

In Point Abino, Ruth has been working hard to get repairs done to the docks and facilities. One of her big projects was to repair the Dredge and obtain a permit (a lengthy process) to dredge this Spring. The permit was granted and with the final repairs done, the Dedge is in the water, and Ruth has the job almost complete. The boats over 6 feet draft will have a much easier time this year. Please thank Ruth for all her hard work on getting Point Abino ready for the season. In addition, all the heaters for the pools have been replaced and will be in operation this season.

The Point Abino Committee has been trying to do its best in keeping

Point Abino in good shape, making sure the damage from the storms, while nowhere near the Buffalo Basin level, still needs attention. And, unseen in the back office, PC Bienko and Treasurer Osinski have been putting our financial records in order. Please make sure to thank them and especially PC Bienko, who I am sure had better things to do with his spare time than spending hours and hours getting the BYC's financial records in order.

**Fleet Captain Donna Atkinson's comments:**

Well, 2022 certainly went out like a Lion! The December storm created a large amount of damage to the Buffalo Basin and docks. We remain diligent in our efforts to have the Basin ready for our May 15th opening, doing everything to avoid obstacles that may prevent a full basin opening AND assure all members have a dock available for their vessel.

I want to thank all of the members of the Basin committee, as well as Doug Bienko, Dave Woollatt, Mike Barry, Craig Bruening, and Dan Ward for their immediate response to assist with the damage incurred. We were very fortunate to have a good weather day the last week of December when the ice had already melted and we were able to resecure the docks stored in the Basin.

A detailed list of all damage sustained has been compiled and reviewed with Chubb, our insurance company.

The key issues we have been focused on with them are the complete replacement of 1 of 2 fingers associated with the dock which sunk on the Navy side. The South Outer docks also require like-for-like replacement and will include the intermediate fingers to maintain consistency with all other outer wall docks. As soon as insurance approval is received, Buffalo Marine is committed to reassemble, repair and install all docks. They will also be handling other miscellaneous Basin repair requirements, which they estimate can be completed within a 3-4 week period of time. O'Connell Electric has provided their quote for electrical repairs and ability to begin work.

All elements are in place so that when we have the OK to begin, we can do so without delay. The Basin committee has also been researching options to repair or replace the Porter Avenue Steel floating docks. These docks were stored off-site and did not incur storm damage, but they do require attention. A number of options are being evaluated for review with the membership for repairing/replacing them over a period of time or all at once. I am honored to be the BYC Fleet Captain this year and look forward to warmer days ahead, as well as another great boating season!

**Guest Columnist Kevin Arnold**

I recently had the pleasure of speaking over dinner with David Johnson, Ted Johnson's father, who has been a member of the yacht club since 1964. Here are some highlights from our conversation.

How did you first join the yacht club?

I bought an 18' Seagull not long after moving to Buffalo and a friend of mine suggested I join. I thought there was no way the yacht club would want someone with such a modest boat but they were eager for younger members.

What was racing like back then?

Before the Buffalo Harbor Sailing Club was started in 1977, we raced at Point Abino on weekends. We would have weekend races to Port Colbourne and Port Maitland. We would race up on Saturday and have a big dinner and party and race back on Sunday. We also used to have a rivalry with the officers from the Navy Reserve next door. One year, they even brought up a crew from Annapolis to try and beat us but the BYC showed them how to race on Lake Erie. This ended up being The Great Race.

Have you raced the Erie Dover?

More times than I can count. My first was in 1968 in a '28 Starlight I had just bought. We started out way behind but ended up coming back and winning the race. We have a lot of fond memories and friends that we have made over the years on the Erie Dover.

What was your first boat?

A 12' Barnegat Bay Sneakbox that I bought for \$50. Ted's first boat, with a 13' beam, was wider than mine was long!

What are some club traditions that you miss?

Members used to put on skits that were very popular. I also really liked

the Harbor Lights parties in the summer when the boats from Point Abino would come down all decorated to the Buffalo Basin. The windows upstairs in the club used to open out, which is something I miss.

What is the biggest change you've seen in the yacht club?

It used to be a DIY club. There was a rail line that went down to the water to take boats in and out of the water. At the beginning of each season, everyone would be down working on their boats, helping each other out, and having a great time. When the rail line was taken out to build the parking lot, the club changed quite a bit.

What is the best thing about the yacht club?

Definitely the relationships with people. It is a great place to meet friends that like to do what we do. We like being on and around the water. Many of these same friends belonged to Sitzmarker (now Buffalo Ski Club) and after the season, we would ski all winter with them. This still happens today. The club has had a lot of characters and we have made so many great friends over the years.

You joined in 1964. What do you suppose the club will be like in 2064?

Exactly like it is now.
